

30 Day Declutter Challenge

declutterstorage.com

Clutter is whatever is in a space that does not belong in the context of that space. When you **declutter** while completing this challenge, that is what you should be looking for: anything that doesn't belong.

Check out declutterstorage.com/30-day-declutter-challenge for a discussion of this challenge!

Rule #1 These do not need to be done on 30 consecutive days, but you *must* do at least 2 days per week.

Rule #2 You do not need to finish each space you start, but you must spend at *least* 30 minutes on each task.

Rule #3 If you don't possess the space (attic, garage, etc.), use the time for a prior space you did not complete.

Rule #4 You must put a **big red X** through each day that you successfully complete! 😊
